HIGH DENSITY POLYMER

General's H.D.P. toilet partitions, showers and dressing compartments are manufactured using high density polymer resin. Color is solid thru-out. Compartments cannot rust, rot, delaminate or absorb odors like marble. Surface has a beautiful orange peel finish to help prevent scratches. Completely water resistant, can be used under any moisture condition. Perfect for shower and dressing compartments as well as toilet partitions.

STANDARD COLORS

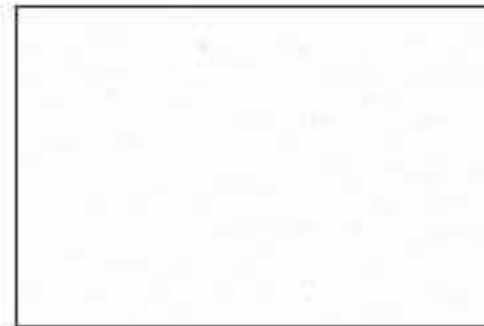

The colors shown are lithographed swatches (not exact color match). Because responsible manufacturers of high density polymer reserve the right of reasonable color variation, we must reserve the same right.
