

GENERAL PARTITIONS *Mfg. Corp.*

June 1, 2026

Dear Valued Customer,

We are announcing a minor change to our HDP color 236 Sterling. Due to manufacturing limitations of our raw material supplier, the color tone of Sterling will be altered slightly. Any new orders will be produced with the new material. The new tone is similar, but not an exact match to the original tone.

We have limited stock remaining, if needed, for orders of replacement parts to match previous jobs manufactured in the old color tone. As always, please be sure to reference General Partitions' "D" number and/or your previous purchase order number when ordering replacement parts for a project.

Please request physical color samples for absolute color fidelity or to replace existing Sterling samples in any HDP sample sets you may have.

If you have any questions, please contact us!

Thank you,
